

SUPERMAX® VS

VARIABLE SPEED PUMP

Pump up to 80%* energy savings back into your pocket.

SuperMax VS Pumps bring the remarkable energy cost savings of variable speed technology to standard pools at an affordable price. They slash energy costs by up to 80%* while helping to keep your pool sparkling clean and inviting. SuperMax VS Pumps come to you from the trusted leader that launched variable speed technology to the swimming pool industry years ahead of every other pump manufacturer.

*Savings based on variable speed pump compared to a single-speed pump running 12 hours per day at an average of \$0.16 per RPM in a 20,000-gallon pool. Actual savings may vary based on local utility rates, pool size, pump run time, pump horsepower, pump rpm, plumbing size and length, pump model, service factor and other hydraulic factors.

SUPERMAX® VS VARIABLE SPEED PUMP

Energy efficient. Easy to operate.

For pool owners who want to step up to the energy savings of variable speed technology, the SuperMax VS Pump is the wise choice. It will save up to 80% on operating energy costs versus standard single-speed pumps.* And, the SuperMax VS Pump is engineered for intuitive, simple operation and trouble-free service.

KEY FEATURES

- No expensive rewiring needed: automatically recognizes and adapts to your 115V or 230V 50/60 Hz input power.
- Costs significantly less to operate because its variable speed technology moves water more efficiently at lower speeds.
- Ideal for standard pools requiring up to 1.5-HP pump.
- Affordable for new and standard pool pump replacement applications.
- Simple, intuitive user interface displays watts, RPM, current time and remaining program duration. Easy-to-read display makes programming and monitoring a cinch.
- Three operating speed settings plus override capability.
- Real-time, 24-hour clock; no need to install a separate external unit.
- Tough, engineered polymer pump body and durable, totally enclosed fan-cooled (TEFC) motor, making it ultra quiet along with years of trouble-free service.
- SuperMax VS Pump is your direct variable speed replacement for the SuperMax single-speed Pump as well as a superior drop-in replacement for the Hayward® Super Pump®.
- WEF 9.0 THP 2.2 (343001)
- UL 60730 Compliant.
- Can be controlled remotely using digital inputs or RS485.

PERFORMANCE CURVES FOR PRESET SPEEDS

Simply Smarter.

The SuperMax VS Variable Speed Pump has earned the Eco Select® brand distinction as one of the greenest and most efficient choices from Pentair.

TRADEGRADE
